**Rachel Franklin (Brown University, [Rachel.Franklin@newcastle.ac.uk](mailto:Rachel.Franklin@newcastle.ac.uk))**

**Bruce Newbold (McMaster University, [newbold@mcmaster.ca](mailto:newbold@mcmaster.ca))**

Description

Sessions on migration and demography have always played an important role [North American Meetings of the Regional Science Association International](#).

We would like to take this opportunity to organize a set of sessions examining demographic and/or migratory processes and their social and economic outcomes at the region, city and/or neighbourhood scales. Themes addressed might include, but are not limited to, the following:

- New data and methods for analysing migration and demography
- Measuring long-run demographic shifts across regions
- Applying administrative data to the analysis of migration
- Migration and regional development
- New data and methods for neighbourhood-level analysis

If you are interested in presenting your research in this special session, please submit an abstract (2,000 to 5,500 characters and spaces) through the conference portal. Information on how to do that can be found here. Upon submitting your abstract, you will receive an abstract ID number (e.g. P12345). Please send your abstract ID number and a copy of your abstract to Abigail Cooke ( [amcooke@buffalo.edu](mailto:amcooke@buffalo.edu)) no later than July 1, 2020.

*Please forward this announcement to colleagues that may be interested.*

*We look forward to seeing you in San Diego!*

Abigail, Bruce, Mark and Rachel
