

Hong Kong University of Science and Technology is currently seeking a postdoctoral fellow who can combine expertise within the fields of regional science, urban analytics and public policy. Candidates with experience in the broad areas of transportation, land use, economic development, housing, and social equity are welcome to apply.

There are two possible venues this position will be funded.

1) Nomination to Hong Kong RGC Postdoctoral Fellowship Scheme. For details, please refer to the website below. Our internal nomination process will start very soon. Interested candidate can send me your CV immediately.

https://www.ugc.edu.hk/eng/rgc/funding_opport/pdfs/

Note that this will be a 36-month appointment, with an annual stipend of HK\$405,330 per year for the awardee's basic salary as well as a conference and research-related travel allowance (of HK\$12,880 per year inclusively).

2) Funded via our Hong Kong University of Science and Technology Guangzhou Campus. This will be a 24-month appointment. The remuneration package varies based on qualifications. Details will be provided upon the evaluation of the candidate's credentials.

Please encourage your students to apply.
