Call for submissions

Special session: Spatial Econometrics Software Round-Table (Spatial Econometrics Association session)

Roger Bivand, Norwegian School of Economics (roger.bivand@nhh.no)
Giuseppe Arbia, Università Cattolica del Sacro Cuore (giuseppearbia13@gmail.com)

During several previous conferences of the Spatial Econometrics Association, we have organised “Software Round-Table” sessions, in which software maintainers and authors provide updates on their software, and discuss current challenges and opportunities. This time, in addition to the presentation of spatial econometrics software by panelists, Roger Bivand will describe the progress of the R-spatial [evolution project](#), retiring legacy packages for handling spatial data in favour of more modern representations.

If you would like to contribute to this session as a panelist, please submit your abstract online (<http://www.narsc.org/newsite/conference/online-abstractsession-submission/>) and then email the Submission ID, Title and Authors to me as soon as possible.

The deadline for abstract submission is July 3, 2023.

Please forward this announcement to colleagues that may be interested.

We look forward to seeing you in San Diego!
